InstantAdPay

Build wide.
Get paid instantly.

The leader's guide to InstantAdPay: how the platform works, where your ads reach, how the pay plan rewards width, and how LinkSpin adds a second income stream on the same wallet.

- 50% on every direct purchase
- Paid in the same transaction
- Ads that reach the whole network
- One wallet, every platform

THE PLATFORM

An advertising platform that pays its members

InstantAdPay sells advertising. Members buy ad credits, run their offers, and real people see them. When someone you referred buys advertising, the platform's smart contract pays you your share in the same transaction.

What members can advertise with

Banner ads
Image ads shown to members and syndicated across the network's ad zones.

Text ads
Short headline-and-link ads in the member viewer and network zones.

Login spotlight
A full-screen ad every member sees after signing in, sold as a 30-day slot.

Inbox solo ads
Your full message delivered to members' inboxes, charged per guaranteed recipient.

Video ads
10, 30 or 60 second videos that members watch to the end.

Website visits
Packs of verified visits where each visitor stays on your page.

Why the views are real

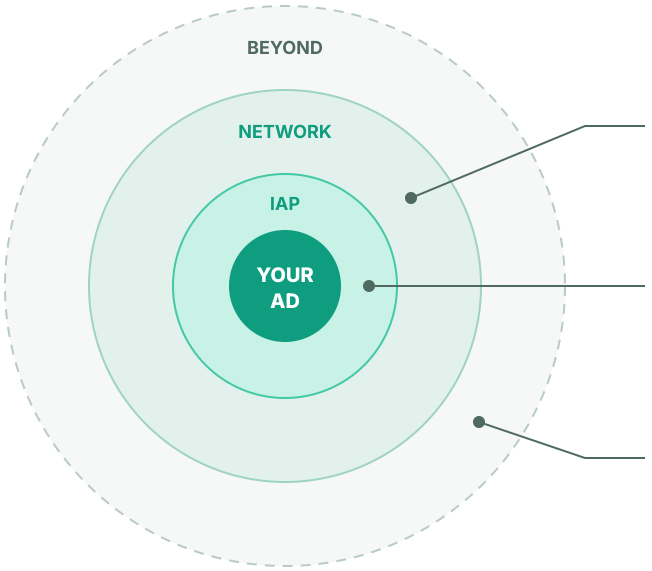

- **Attention is required.** Members earn credits by viewing ads for at least 10 seconds, and the daily credit claim requires viewing ads first.
- **Targeting by country.** Every campaign can be shown to Tier 1, Tier 2 or Tier 3 countries, with a per-country breakdown of who saw it.
- **Delivery is counted, not estimated.** Credits are charged for views that actually happened. Undelivered views are returned to the advertiser.

The business in one line: the people you bring in are advertisers. Every time one of them buys advertising, money moves to your wallet automatically. There are no withdrawal requests and no waiting on an admin to approve a payout.

REACH

Your ads don't stay on one site

An InstantAdPay campaign is not limited to the members of one website. Banner, text and click campaigns are pushed out to the ad rails of the whole Crypto Team Build Network and to partner sites beyond it.

THE NETWORK

Network Ad Space zones across the network's sites (about 2 million ad impressions in August 2026)
AdRevLinks popups for Tier 1 campaigns
Network games such as Gem Kingdom

INSTANTADPAY

Member ad viewer, login spotlight, inboxes, video and website-visit campaigns

BEYOND THE NETWORK

DripOffers offer wall on partner paid-to-click sites, delivered as real clicks
LinkSpin ad zones on members' own websites

Network Ad Space zones run on network sites including the Crypto Team Build hub, TeamBuildVIP, BTC4Hits, AdRevSplit and the downline-builder sites. Every member is also a viewer: viewing ads is how members earn their daily credits.

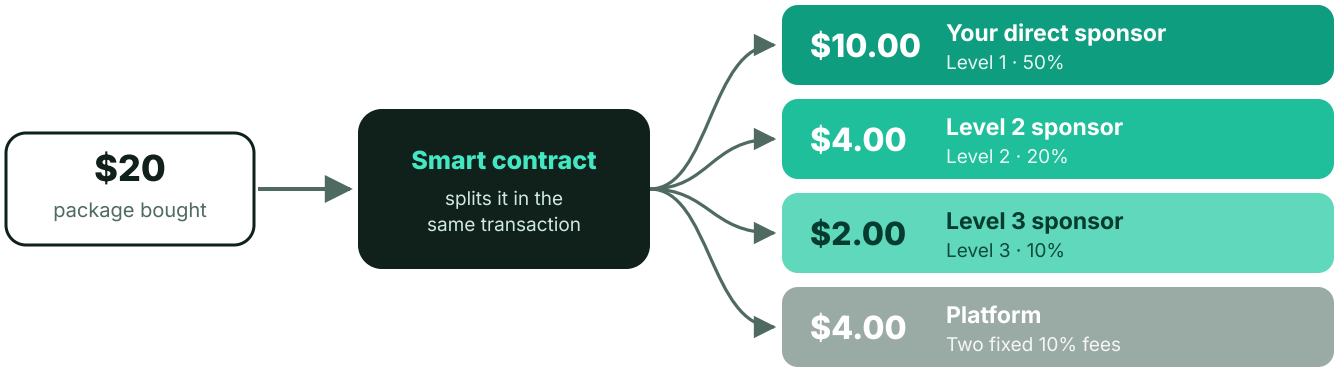

Why this matters when you build

Your referrals are not buying a slot on one small site. They are buying reach across a network of sites and partners, with real delivery counts behind it. That makes the advertising worth buying for its own sake. When people buy for the advertising itself, they come back and buy again, and every repeat purchase pays you again.

THE PAY PLAN

Three levels, paid the moment they buy

Every purchase is split by the InstantAdPay smart contract on the Polygon blockchain. The split is written into the contract and nobody can change it.

One $20 package, split four ways in a single transaction. Members share 80% across three levels; the platform keeps two fixed 10% fees. Paid in POL at that moment's rate.

The rules that matter

- **Paid instantly, to your wallet.** Your share is sent in POL in the same transaction as the purchase, at that moment's exchange rate. Nothing to claim, no payout schedule.
- **Every purchase pays.** Not just the first one. When a referral buys advertising again next week, you are paid again.
- **Level 1 is open to everyone.** Switching on payouts takes one small network transaction, a fraction of a cent in POL. You do not have to buy anything to receive 50% on your direct referrals' purchases.
- **Levels 2 and 3 are unlocked by width** (see the next page).
- **Switch payouts on first.** A purchase is never held up. If a referral buys before your payouts are on, the sale pays the first sponsor above you who has them on, and that buyer moves to their line for good. Link your wallet and switch on payouts before you invite anyone.

Packages and what each one pays

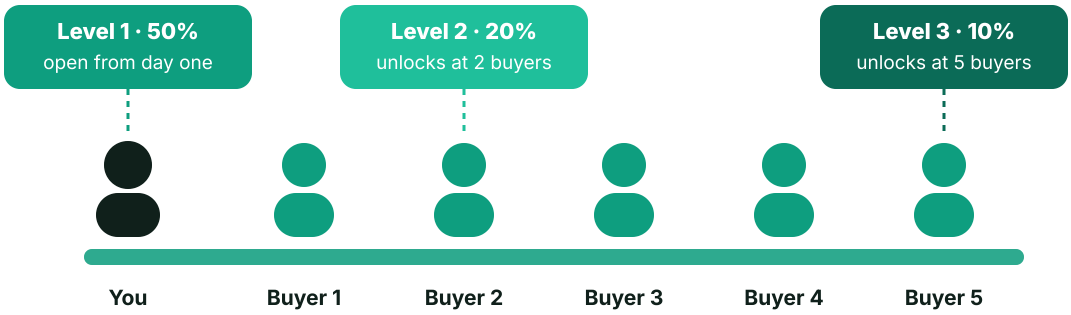

PACKAGE	AD CREDITS	LEVEL 1 (50%)	LEVEL 2 (20%)	LEVEL 3 (10%)
$5	500	$2.50	$1.00	$0.50
$10	1,000	$5.00	$2.00	$1.00
$20	2,000	$10.00	$4.00	$2.00
$50	5,500	$25.00	$10.00	$5.00
$100	12,000	$50.00	$20.00	$10.00
$250	32,500	$125.00	$50.00	$25.00
$500	70,000	$250.00	$100.00	$50.00

Amounts are the US dollar value, paid in POL. The $5 and $10 packages pay all three levels but do not count as qualifying buyers; $20 and up do. Package list as of October 2026; check the site for current packages.

THE STRATEGY

Width is what unlocks depth

Most plans make you choose between building wide and building deep. In InstantAdPay you don't have to choose: width comes first, because your direct buyers are what switch on your deeper levels.

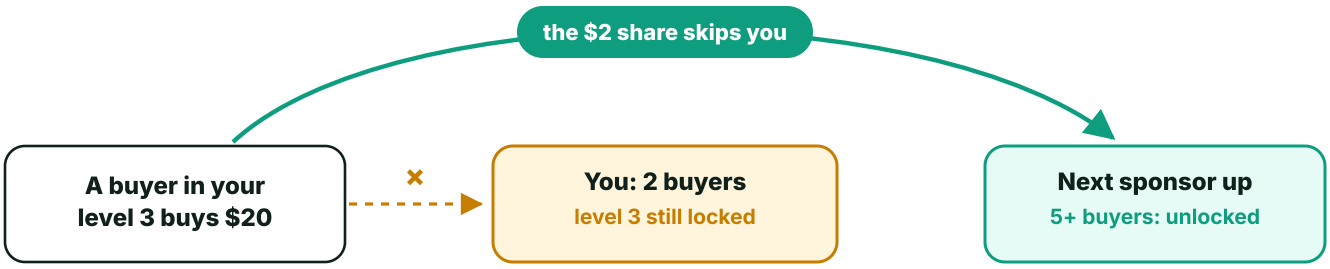

QUALIFYING BUYER

A direct referral whose purchase is $20 or more. Each person counts once. Your own Qualified Start positions count too.

Smaller purchases still pay you; they just don't count toward unlocking levels.

What happens if you build deep without building wide

If you haven't unlocked a level, that level's share does not wait for you. The contract passes it up to the next person above you who *has* unlocked it.

Width pays twice more on the site

Milestone ad credits

Bonus ad credits as you grow: +10 when payouts are switched on, +25 for your first qualifying buyer, +50 when level 2 unlocks, +100 when level 3 unlocks.

Your own wall

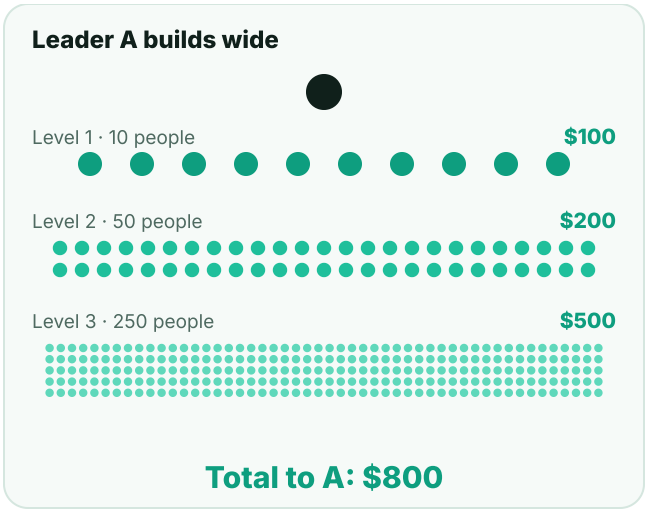

Your referral wall has three ad positions. Position 1 is always yours. Positions 2 and 3 show your upline's ads until you unlock them at 2 and 5 qualifying buyers. Then they show your own offers.

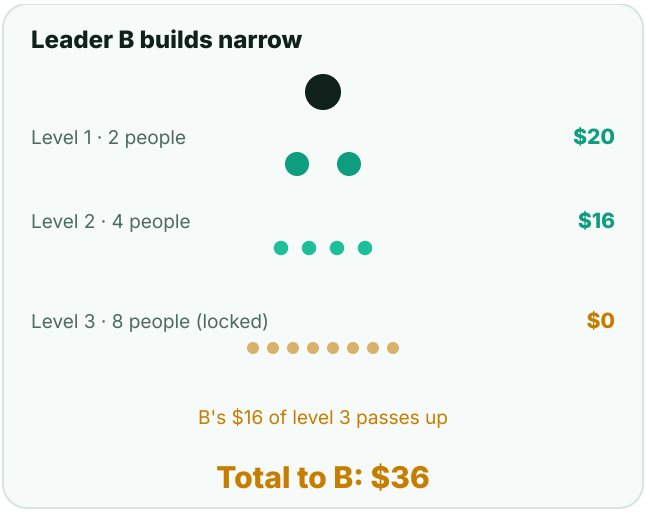

The leader's target is five. Five personal referrals who each make a $20 purchase unlock every level you can earn, the Level 4 override, every milestone and your full wall. Then keep going wide: there is no limit on how many people you sponsor, and each one pays 50%. Want them open on day one? See Qualified Start.

AN ILLUSTRATION

Wide versus narrow, same effort

Two leaders. Every person in each example makes one $20 purchase. Both teams follow the same habit their leader follows.

Leader A builds wide

LEVEL	PEOPLE	PAID TO A
1: A sponsors 10	10	$100
2: each sponsors 5	50	$200
3: each sponsors 5	250	$500
Total	**310**	**$800**

A has 10 qualifying buyers, so levels 2 and 3 are both unlocked.

Leader B builds narrow

LEVEL	PEOPLE	PAID TO B
1: B sponsors 2	2	$20
2: each sponsors 2	4	$16
3: each sponsors 2	8	$0
Total	**14**	**$36**

B has 2 qualifying buyers: level 2 is open, level 3 is not. B's $16 of level 3 passes up to the first person above B with five buyers.

And that's from one purchase each

Advertisers who get results come back. Every repeat purchase anywhere in those three levels pays again, at the same percentages, the moment it happens. A wide team of active advertisers keeps paying you.

This is an illustration, not a promise of income. Whether anyone buys, and how much, is their own choice. Figures are the US dollar value of payments made in POL at the exchange rate at the time of each purchase.

ONE LEVEL DEEPER

Level 4: the override

Levels 1 to 3 pay you in the same transaction. Starting October 26, 2026, the company also pays 3% of every package bought four levels below you, once you have five qualifying buyers.

LEVEL 1	LEVEL 2	LEVEL 3	LEVEL 4 OVERRIDE
50%	**20%**	**10%**	**3%**
Open from day one. Paid by the contract, instantly.	At 2 qualifying buyers. Paid by the contract, instantly.	At 5 qualifying buyers. Paid by the contract, instantly.	At 5 qualifying buyers. Paid by the company, weekly.

How it works

Who gets it

The buyer's 4th sponsor up, as long as that member has 5 or more qualifying buyers: the same bar that opens level 3.

It climbs

Not qualified yet? The override moves up the line to the next member who is, up to 25 steps. One override per purchase, to one person.

Paid every Monday

In POL, from a company wallet, after 9 AM Central for the Monday to Sunday week before. Every payment has its own Polygon link and shows in Earnings as "Level 4 override". First payout: Monday, November 2.

The split doesn't change

It comes out of the platform's 20% share. The contract's 50/20/10 is untouched. Purchases from October 26 on count; earlier ones do not. Totals under 0.01 POL carry to the next week.

Why five, and why wide

Five qualifying buyers opens level 3 *and* the override, so build wide to get there. Then bring in people who actually want traffic: they buy again when their credits run low, and that repeat spend keeps every level paying. Then help your people reach their own five, because the override climbs past anyone who is not there yet.

LinkSpin pays its own. Same 3% Level 4 override on LinkSpin's own purchases, with its own five qualifying buyers ($25 or more there). Qualification does not carry between the two sites, so build both.

No income is promised. The override pays only on real purchases in your line. Whether anyone buys, and how much, is their own choice.

KEEP THE ENGINES RUNNING

Fuel Your Offers: the Monthly Refuel

Ads run on fuel. Members who refuel every month earn a bonus that climbs, plus a fresh banner kit with their name on it. Repeat ad spend is what keeps every level paying, so this is the habit to teach.

How a refuel counts

A real package
A new package of $20 or more on InstantAdPay, or $25 or more on LinkSpin, from one of your own wallets.

Your own refuel day
Your first refuel sets it. The next is due 30 days later. The window opens 5 days early, with 5 days of grace after.

One free miss a year
Miss a month once and the streak holds. Miss again inside the year and it starts over.

The bonus climbs, in ad credits

MONTH IN A ROW	1	2	3	4 AND ON
One engine (either site)	+10%	+15%	+20%	+25%
Both engines (both sites, same month)	+15%	+20%	+30%	+40% each

From month 4 with both engines, 100 Featured bonus credits on InstantAdPay too. A Pit Stop top-up between refuel days earns half your current rate. The refuel bonus stacks on Five Dollar Friday and Wired Wednesday. Bonus credits buy ad delivery only; they are never cash.

What every refuel also unlocks

The Refuel Kit
That month's banners in 5 sizes with the member's @name and a QR code to their own link. Animated from month 3. One click into a campaign or a Banner Spin.

Badges
Engine Started at the first refuel, then Refueled 3, 6 and 12 months, posted for the team to see.

The Engine Room
Fuel left, clicks and goals on one screen, warning lights, and one next-move button.

How to coach it. When someone in your line buys their first package, help them pick a refuel day they can keep, then show them the Refuel card. Teach both engines: a package on InstantAdPay and one on LinkSpin each month earns the higher rate on both. Point them at the Engine Room's next move, and use the kit yourself so they see it working.

SELF-QUALIFYING

Qualified Start: be your own first buyers

You don't have to wait for your first referrals to open your deeper levels. InstantAdPay lets you qualify yourself, openly, with positions of your own.

What a position is

A second wallet you own, linked to your account and registered directly under your main member. You can link up to five.

What it counts as

When a position buys a $20 or larger package, the contract counts it as one of your qualifying buyers, exactly like a referral.

Half comes back to you

Your main wallet is the position's direct sponsor, so 50% of every position purchase is paid straight back to your main wallet.

The credits are yours

Ad credits bought by your positions pool with your own. Run them as campaigns from the same dashboard.

What it unlocks

POSITIONS WITH A $20+ PURCHASE	PAY LEVELS	ALSO UNLOCKS
1	Level 1	+25 milestone credits, the AI Copy Engine
2	Levels 1 and 2, the same day	+50 milestone credits, wall position 2, Video Maker and split tester
5	All three levels	+100 milestone credits, wall position 3, Leader Ops

The math on five $20 positions

You spend $100. $50 comes back to your main wallet as level 1 commission. You hold 10,000 ad credits to advertise with, and levels 2 and 3 are open before your first referral joins.

How to set it up

1. Link your main wallet and switch on payouts. **2.** In your wallet app, add a second account (MetaMask: Add account; Trust or SafePal: switch wallet) and fund it with POL for a $20 package plus gas. **3.** On Buy packages, use Qualified Start, Add a position, sign once, then pick it under "Buy from" and buy a $20 or larger package.

The rules: your own money and your own wallets, up to five per account. Positions are for qualifying: once you're qualified, buy from your main wallet so your own sponsor is paid in full. This is not an income promise. Qualifying only pays on future purchases in your line, and every package is real advertising you can spend.

YOUR TOOLKIT

Tools built for sponsors, not just advertisers

Your dashboard is a full team-building workspace. These tools are what make building wide manageable, because they tell you who to talk to next and what to say.

The Pipeline: your follow-up board. Everyone you're working with sits on one board, in columns that move by themselves as people take each step: **Talking to, Joined, Wallet linked, Payouts on, Bought, Building, Later**. Add notes, set follow-up dates and tag people (hot, later, no response). A "Follow up today" strip shows who's due, and each stage has a ready message you can open straight into a chat with that person.

Coach your directs

Each direct on a 7-step ladder, stalled members flagged, one-click nudges, plus automatic reminders and a weekly digest.

My line

Three levels of your team with live activity: who's earning, who has bought and who has gone quiet.

Promo tools

Posts, texts, email swipes, banners, objection answers and videos, with your link filled in.

Angle pages and link stats

Join pages by angle, a viral link for any page, and stats on which angle brings joins.

Team messaging

Chat with anyone in your line, plus one team broadcast a day.

Training and leaderboard

Videos for every screen, and a leaderboard that awards ad credits weekly and monthly.

The badge ladder: tools unlock as you grow

BADGE	HOW YOU EARN IT	WHAT IT UNLOCKS
Free	Join	Invite link and angle pages, all promo tools, banner wall, objection handling
Spark	Switch on payouts	One-tap campaign templates aimed at your link, printable QR handout
Surge	First qualifying buyer	AI Copy Engine: posts, DMs, follow-ups, objection replies, emails
Circuit	2 qualifying buyers	Video Maker with your own end card and QR, angle split tester, more AI
Nexus	5 qualifying buyers	Leader Ops (team triage, nudges, AI team broadcasts), co-branded join page, credit grants to your team, your own promo code

Qualified Start positions count toward badges, so self-qualifying unlocks the tools as well as the levels.

LinkSpin — The second income stream, built on the same pay plan.

TWO INCOME STREAMS

LinkSpin: the tools to promote anything

InstantAdPay is where your team advertises. LinkSpin gives them the tools to promote everything they run, InstantAdPay included, and it pays on the same three levels.

Spin links

One link that rotates between your destinations, with weights, schedules, country and device rules, and automatic health checks that pull dead links.

Real tracking

Visits, uniques, clicks and conversions by source, country, device and hour, with postbacks to the traffic networks you buy from.

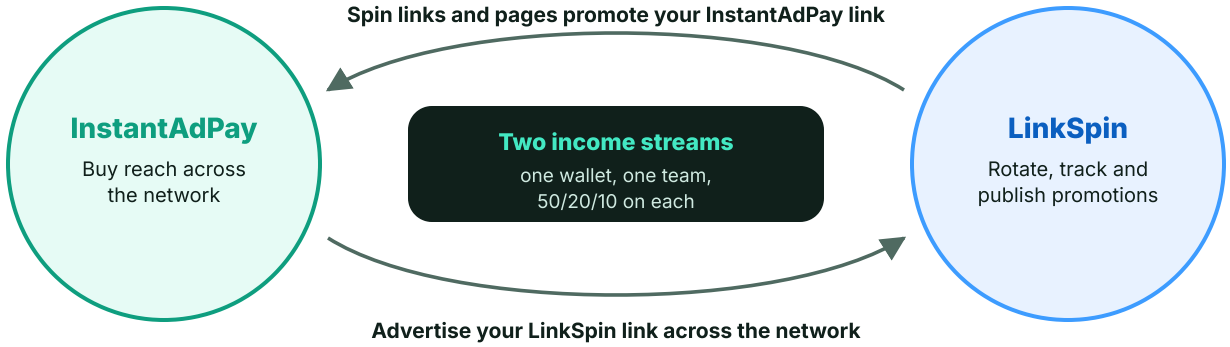

Pages

Bridge, review and squeeze pages built in minutes and published on LinkSpin's own pages domain, with tracking built in.

Ad zones

Put LinkSpin ad zones on your own websites and earn ad credits from the views they serve.

How the two fit together

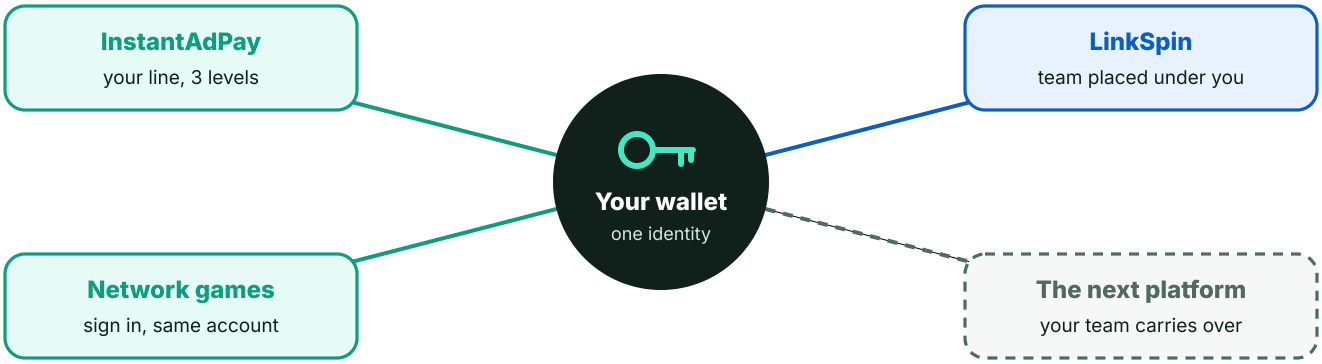

- **Same pay plan:** 50% level 1, 20% level 2 at 2 qualifying buyers, 10% level 3 at 5, paid in the same transaction. On LinkSpin the $25 package and up count as qualifying; the $10 entry package pays you but does not count toward unlocking levels.
- **Packages:** $10, $25, $50, $100, $250 and $500.
- **Same strategy:** the five strong direct buyers who unlock InstantAdPay are the natural first five for LinkSpin too.

LinkSpin is in testing now and opens to members in November 2026.

ONE NETWORK

Your wallet is your key. Your team follows you.

Every platform in the network recognises you by your wallet. The sponsor line you build on InstantAdPay carries over, so you never start from zero on a new platform.

One wallet, every platform

The wallet you link on InstantAdPay is your identity across the network. Sign in to a new platform with the same email or wallet and it already knows who you are and who sponsored you.

Your team is already placed

When a new platform launches, members who have linked a wallet are placed under their existing sponsor on it. Your team is there under you before you send a single invite.

Sponsors are never orphaned

A sponsor is never passed over for being quiet or inactive, and a purchase is never held up. The only thing that moves a sale past you is not being set up to receive it: no wallet linked, or on InstantAdPay, payouts not switched on.

On LinkSpin, switched on for you

If your wallet is already on file with the network, LinkSpin switches on your payouts for you and covers the cost. You are paid from your team's first purchase and notified, even if you have never signed in.

The one thing every leader must do: link your wallet and switch payouts on, then teach every person you sponsor to do the same on their first day. That single step protects your income on every platform the network launches.

GET STARTED

Your first week as a leader

Five steps, in this order. Every one of them is something you can teach to the people you sponsor on their first day.

1. **Link your wallet and switch payouts on.**
   Do this before you share a single link.

2. **Find your first two buyers.**
   Two qualifying buyers unlock level 2 and your second wall position. Or open it today with two Qualified Start positions of your own.

3. **Get to five, and work your Pipeline.**
   Five unlocks level 3, your full wall, Leader Ops and every milestone credit. Put every prospect on your Pipeline board so nobody slips.

4. **Keep going wide.**
   There's no cap on directs, and each one pays 50% on every purchase.

5. **Teach the same plan.**
   Hand each new member this guide. Leaders who go wide build teams that go wide.

Your Promo tools and the Plays page on InstantAdPay have ready-made posts, join pages and scripts with your own link filled in.
